The Georgia Center is taking the following steps to create a safe environment to best serve our guests within our facility and when delivering or catering off-site:

IN OUR FACILITY

- Cleaning more often throughout the building between 7 a.m. and 10 p.m. daily, and disinfecting frequently touched surfaces hourly
- Providing hand sanitizer and disinfectant wipe stations throughout the building and for catered meals
- Limiting capacity in our elevators for unrelated guests
- Using signage and other communications to encourage all members of our community and visitors to help prevent the spread of disease by wearing masks, maintaining social distancing and practicing good hygiene
- Spreading out our tables for outdoor dining and limiting and distancing seating inside the Georgia Center

Our top priority remains the health, safety and well-being of all members of our campus community. Please note that cloth face coverings or masks are required of all guests and employees inside of the public areas of buildings on campus. Please also pay attention to the floor markers indicating where to stand while you're in line to help maintain proper distancing.

BY OUR TEAM

- Requiring our employees to confirm that they are not experiencing any signs or symptoms of COVID-19 before they report to work using the Dawg Check app
- Providing thorough training for supervisors and employees, including best practices for safer interactions between guests and team members
- Requiring team members to wear gloves and masks at all times while serving guests and in public areas
- Following public health guidelines from the Georgia Department of Public Health, the Centers for Disease Control and Prevention, and the University System of Georgia
